STATION ANNOUNCEMENT

(Read Carefully)

Once again we are pleased to present you with our list of "DESIRABLE DAHLIAS." We had a wonderful season with the first frost on Oct. 24th. Reports from all over the country were very gratifying regarding our stock with many winnings at the various shows. It is through shows and catalogues one finds the newer varieties and ordering by mail is the modern way of securing these new numbers. However, this privilege is being seriously threatened by the constant increase in postal rates. This is a matter of vital importance to everybody. Until the time comes that we can ship charges collect—like the Express Company—we are again asking you to share the expenses with us as you so willingly did in the past. **On orders for less than \$3.00 add 30¢. From \$3.00 to \$5.00 add 50¢.** Orders for over \$5.00 will be shipped prepaid. If you want any stock during freezing weather in the East it will have to be forwarded by Express collect.

GUARANTEE—All our stock is Government inspected and fully guaranteed. If any variety should fail to grow we will willingly replace or refund the purchase price. All orders accepted subject to being unsold and any other conditions over which we have no control.

TERMS—We require cash with order or a reasonable deposit to hold early orders till shipping time. We **DO NOT ship C.O.D.** This is an added expense to you and extra work for us. Make all checks and Money Orders payable to **J. E. HULIN.**

REMEMBER to always sign your name and full address, even if you order several times. It is sure to be plain if printed. Sales tax required on all Washington orders. Unlike many others—our prices are **NOT** subject to change without notice.

CLASSIFICATION OF DAHLIAS

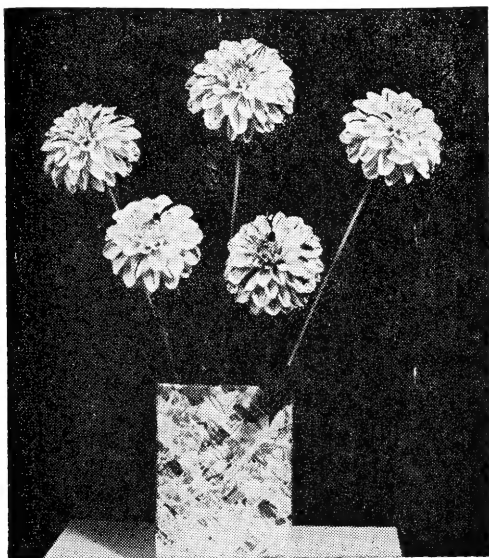

- F.D.— Formal Decorative, fully double flowers with uniform broad petals either pointed or rounded at tips.
- I.D.— Informal Decoratives, fully double flowers with the margins of the floral rays slightly or not at all revolute, generally long, twisted or pointed, irregular in arrangement.
- S.C.— Semi-Cactus, fully double flowers with margins of floral rays revolute for half their length.
- I.C.— Incurved cactus, fully double flowers with the margins of the floral rays revolute for one-half or more of their length with tips curving toward center of flower.
- St.C.— Straight cactus, same as above but with the floral rays straight, slightly incurved or recurved.
- Ball— Fully double, ball shaped or slightly flattened rays either quilled, round or blunt at tips.
- Single—One row of ray florets with a pronounced disc at center.

DESIRABLE DAHLIAS for Your Growing Pleasure

SILVER WEDDING, I.C. (Ernst-Hulin)—This incurved cactus is most charming in formation. The long petals have a twist and curl seldom seen in dahlias. Color is white with a faint mallow center which disappears when the flower is older. Diameter of bloom is 9 to 11 inches with a depth of four to five. Stem 11 to 16 inches strong and thick with flowers facing. Height 5 ft. erect branching with extra free flowering habits. This dahlia has been tried in several localities with all good reports but one. Although it is a little thin the formation is needed. It certainly attracts plenty of attention. Healthy grower and good root maker. Strong divisions, each\$10.00

CARNIVAL

CARNIVAL, F.D. (Hulin-Parrella)—A new miniature in the variegated family that's outstanding. The ground color is a creamy pink with flecks and stripes of dahlia purple. The size is around four inches on long strong stems. Nice green foliage keeps the insects away. Tried in several places with all good reports and very highly spoken of on Webb's Dahlia Review. If you like variegated you will enjoy this one. Roots **NET \$3.50**

TACITA, I.D. (Hulin-Parrella.)—This lovely little gem is solid rose pink. One of the most attractive in our entire plot of small ones. The blooms are 4 inches on splendid long stems. It keeps well as a cut flower and is wonderful for arrangements. You will like **Tacita**. Each **3.00**

NOTICE

If your bi-colored and variegated dahlias show a solid color bloom at times don't feel too bad about it. All bi-colored and most variegated varieties will throw a solid bloom at times. Dixie Winedot will be solid purple, Gypsy Girl a solid white, Ricky a solid red, and so on through the whole list of bi-colors.

TRINKET, I.D. (Hulin)—The Trial Gardens say this is informal but with us most blooms are semi cactus. Either case it is a sweet little dark red. The color is nearly garnet and the size is 3½ inches on stems that hold it well up. It was scored 85M at Ohio Trial Gardens. The low price is only 2.50

See picture under Miniatures.

Every spring we get late orders that we are not able to fill in their entirety. If your order comes in late, please give us the permission to substitute if out of a variety on your order. When ever a substitution is necessary you will receive a variety of better value than the one you ordered. Early orders will receive better selections. Always give your name and address no matter how many times you may order. Thanks.

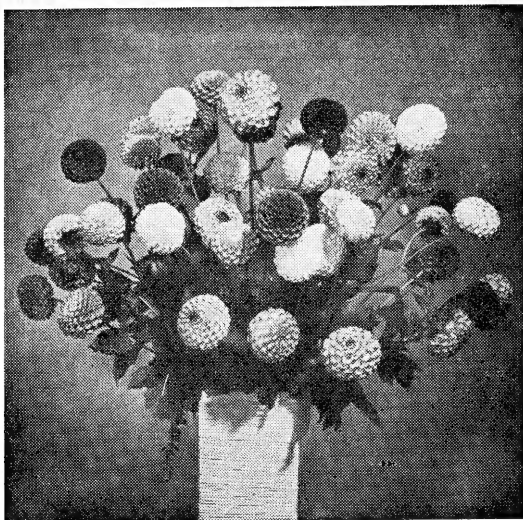

SEEDS FROM DESIRABLE DAHLIAS

It is not easy to get a real good dahlia from seed, but the chance is always present and you may be fortunate from only a few seeds. Try a few in that vacant spot.

Mixed hand picked cactus varieties	Per 100	\$5.00
Mixed large varieties	Per 100	4.00
Mixed Miniatures	Per 100	2.00
Trial pkg. above varieties, good count.	Pkt.	1.00
Collarette seed, generous amount	Pkt.	.50
Bonny Esperance. Smallest dahlia grown	Pkt.	.25

ROOTS ONLY are offered in this catalogue. Our stock is all root grown, so there is no chance to get over propagated stock from us. Many a good dahlia gets a set back from being over propagated. This we know from sad experience.

Liquid Fish works wonders on all plants.
